Chennai, India | Relocating to Dubai, UAE from October 2026

PROFESSIONAL SUMMARY

UI/UX and Product Designer with 4 years of experience across freelance, agency and in-house roles, designing web and mobile products for SaaS, HR, real estate and maritime clients. Combines user research, wireframing, high-fidelity UI, design systems and usability testing with front-end delivery in React, Next.js and Tailwind CSS, removing the gap between design and implementation. Recent work includes a 100+ screen HR mobile application and a ship-chartering dashboard for Dubai-based clients. Relocating to Dubai from October 2026 with immediate availability.

TECHNICAL SKILLS

Design and UX: UI Design, UX Design, User Research, Wireframing, Low- and High-Fidelity Prototyping, Interaction Design, Visual Design, Usability Testing, Design Systems, WCAG Accessibility, Product Design

Design Tools: Figma, Figma AI, Framer, Adobe InDesign, Adobe Illustrator

AI-Assisted Design: Claude, ChatGPT, Lovable, Stitch AI

Front-End: HTML, CSS, TypeScript, React, Next.js, Tailwind CSS

Animation and Motion: Framer Motion, GSAP, Lenis

Collaboration and Workflow: Git, GitHub, Vercel, Design-to-Development Handoff, Developer Collaboration

PROFESSIONAL EXPERIENCE

UI/UX Designer and Graphic Designer

Jul 2025 - Jul 2026

Your Office Partners, Business Bay, Dubai, UAE

- Led end-to-end product design for a ship-chartering web application serving Dubai-based clients, consolidating vessels, cargo orders, voyage estimation and bunker reporting into a single dashboard.
- Designed a 100+ screen HR mobile application end to end, covering information architecture, user flows, wireframes, high-fidelity UI, design system and developer handoff.
- Rebuilt the UI of an HR web application, adding an organisation-chart feature and restructuring information hierarchy across payroll, attendance and leave approval workflows.
- Designed and developed a Dubai real-estate website in React and JavaScript, implementing technical SEO that scored 97% on audit.
- Collaborated with developers on a GPS-based attendance system, restricting check-in to a 50m radius of the office location.
- Redesigned the company website, improving navigation, visual hierarchy, responsiveness and brand consistency.
- Mentored an intern through the design and build of an HR services landing page, reviewing UX, UI and implementation.
- Produced daily marketing and brand assets, including social posts, promotional cards, brochures and print collateral, to a consistent brand system.
- Published blog content twice weekly in support of the company's organic search presence.

UI/UX Designer

Feb 2024 - Jan 2025

NGEN LABS, Chennai, India

- Led end-to-end UI design for a vendor management platform, enabling non-technical users to track vendors and onboard products through task-focused workflows.
- Designed a dashboard for an internal banking web application, improving information hierarchy and data legibility across core reporting screens.
- Restructured a cluttered gas and oil services website into a clearer, more navigable layout with a consistent visual system.
- Designed a multi-page charity website, applying a minimal layout and consistent typographic system across all pages.

Freelance UI/UX Designer

Apr 2022 - Jan 2024

Self-Employed, Chennai, India

- Delivered the event website for an AI programme hosted by a Singapore-based university, completing the full design within a two-day turnaround ahead of the client deadline.
- Redesigned logo and visual identity assets for a technology startup and an IT services company, improving mark clarity and brand consistency across digital applications.

EDUCATION

Bachelor of Computer Science and Engineering
Anna University, Chennai, India

2019 - 2022

CERTIFICATIONS

- User Experience Design (UXD), Accenture, 2024
- Git and Version Control, Great Learning, 2026
- Business Analysis and Process Management, Coursera, 2026
